SUMMARY

Program Management and Operations-focused professional transitioning from a Civil Engineering and BIM background. Skilled at aligning cross-functional teams across international projects, tracking outcomes against timelines and quality standards, and building data-driven dashboards for decision-making. Track record leading operations and events for units of 150+ people. Google Project Management Certified.

PROFESSIONAL EXPERIENCE

Project Operations Intern, Studio Orange, India Jul 2026 – Present

- Partner with architects and cross-functional project teams to resolve design conflicts and keep outcomes aligned with client requirements and timelines.
- Conduct drawing reviews and maintain quality-control standards across project deliverables, catching inconsistencies before they reach the client.

Architecture & BIM Intern, Celekhor GmbH, Germany Jan 2026 – Jun 2026

- Delivered 25+ BIM models across international architectural projects, ensuring output met client requirements and industry standards.
- Owned quality assurance for 30+ BIM model checks per month, identifying design inconsistencies and improving model accuracy ahead of delivery.
- Worked with distributed teams in a structured, cross-time-zone workflow — strengthening stakeholder communication and process-driven execution.

Co-Founder & Business Operations Lead, Ribhus

- Founded Ribhus, an early-stage BIM consulting studio — defined the service offering, pricing framework, and operating model from the ground up.
- Own go-to-market strategy end-to-end as Founder: built the company website and brand identity, developed a 90-day content calendar, and prepared client proposals to generate business opportunities.
- Built targeted prospect lists across the UK and Germany architecture and energy-consultancy markets to drive lead generation.

Junior Under Officer (JUO) & Vice President, SAAMANT, National Cadet Corps – DTU 2024 – 2026

- Managed and mentored 100+ NCC cadets — overseeing training, discipline, task allocation, and day-to-day unit operations; served as Company Senior for a 10-day Combined Annual Training Camp of 150+ cadets.
- Led planning and execution of SAAMANT, DTU's flagship NCC fest, as Vice President (2025–26) and Media Head (2024) — directed a 40+ member organizing team across 15+ events for 3,000+ attendees, owning vendor management, procurement, and budget tracking.

PROJECTS

CadetOS — Operations Data Platform

- Diagnosed recurring gaps in attendance, scheduling, and reporting across a 150+ cadet unit, tracing them to manual, paper-based processes.
- Scoped the problem into a PRD, mapping requirements by persona, then prioritized attendance automation, scheduling, and reporting as the highest-impact features.
- Translated the prioritized PRD into a working prototype and centralized dashboards, improving visibility into unit-level activity for 150+ cadets.

Delhi Traffic Congestion & Signal Optimization Dashboard

- Analyzed 2,000+ traffic observations, achieving a 76-second average delay reduction by designing SQL-based data models and KPI queries to identify congestion hotspots across 5 key corridors.
- Developed a 5-page Power BI dashboard with 100% coverage of key metrics, integrating Kaggle datasets with simulated Delhi-specific corridor data.
